PHACE Syndrome Awareness

Help us help bring awareness about PHACE Syndrome to get kids properly diagnosed and treated.

Take a picture of yourself holding the top half of this sign (you can fold in half) and then challenge three of your friends to do the same. Have fun and make a memorable PHACE. Kids and adults without PHACE supporting our kids with PHACE are always welcome and appreciated.

You can make a difference by this very simple act of kindness for all of the PHACE families.
